JFK assassination records appeals Harold Weisberg 8/20/79
Exemptions claimed; unnecessary withholdings; violation of 5/5/77 policy

Attached 62-109060-6060 pretty clearly has the name of Richard E. Sprague withheld. By the time these records were processed he was as much a public personality as most of those on whom defamatory information was disclosed on that basis.

I do not recall seeing any more of the phone call referred to in the file.

The call was by a supervisor at FBIHQ. No record in the file can be another indication of another tickler not provided.
